**TEXT:** *Principles of Anatomy and Physiology*, 13th edition, by G. J. Tortora & B. Derrickson, John Wiley & Sons, 2011.

**LAB MANUAL:** *Laboratory Manual for Human Anatomy and Physiology*, by M. E. Smith and W. J. Loughry, Pearson Custom Publishing, 3rd edition, 2002. Note that the lab manual is optional, as all information concerning the lab exercises is now available online.

**LAB KIT:** Available in the bookstore. You will need to bring this to lab each week. You may also wish to purchase rubber or plastic examination gloves for use during the lab dissections. These are available at many local stores.

**LAB SPECIMENS:** Sheep heart and fetal pig. As a result of the institution of lab fees for this course, these specimens will be provided to you. Buckets containing the specimens will be allocated at 1 bucket per 2 students, so you will need to identify a lab partner prior to the beginning of the dissections. As the number of buckets available is limited, it will be difficult to allow anyone to work on their own. However, if you really would prefer this option, see me and we will discuss it.

**COURSE GOALS:**

exam, and (2) there is some incentive in taking the first four exams and thus possibly avoiding the final.

**GRADING:** Exams will be graded and returned to you within a day or two. See the course outline for exam dates. Any questions, problems, complaints, etc. regarding the
